Re: Congratulations and important information

Your Excellency, Felicitations!

Re: Congratulations and important information

Commendations on your lofty goals and values for your territorial self-realization under the flying banner of your territorial insignia! Glad tidings on the occasion and opportunity to that which you find to be sustainably developing your own microcosm!

On such a weighty occasion, with such an opportunity, it is hard not unburden one's heart by sharing in the delight and enthusiasm.

In this joyous time, I wonder, regarding your command chain territorial integrity, signatory command chain responsibility for behavior, any succeeding through the body politic and its competent administrative organs on territory connecting UNCLOS & IATA confluent area for responsibility/ability-to-respond. Having related that, I may include your proportionality and your moderation, your consolidated functioning of mutual solidarity, your mutatis mutandis applicability which is good for your children, good for your spouses, good for your siblings and parents, even good for the global commons, as this pertains to my

previous inquiries of when my mother Elizabeth Golmohammadi née Bevan said that she did not want her then circumstances as per attached audio recordings:

[Z000305WhyStayInChina part IdRather.MP3](#)

[Z0000390ItsLikeBeingInJail.MP3](#)

[Z0000390YouDontHaveToComeButI DontCallThisLiving.MP3](#)

[Z0000390BetterInPrison.MP3](#)

[Z0000390I ThinkItsTerrible.MP3](#)

approximately during the time period when, on the one hand, I was told that in order to ever meet her again I was obliged to request psychopharmaceutic medication as in

[10102807NomedicinNoTalkToOnesMother.mp3](#)

(and was apparently prevented from meeting her again)

and on the other requested to write a statement to the effect

that I was fine and well by the part-time employees of, as I understand, my sister Haleh Golmohammadi and brother-in-law Olinga Mazlum as in

[10111001JiuXieNiHenHao.mp3](#)

and

[10111001Xieba.mp3](#)

I specifically demand any and all information regarding relevant ICD10 defining and implementing command chain integrity and similar. Further to this also such as a relevant coroner's report, copy of any subsequent will and testament, executed will and medical records, statement on testimonial capacity and officially recorded travel documentation. That is to say within your *mode d'emploi*, standard operating procedures, *modus operandi* and governing principles, your territorial supremacy and the direct effect that you recognize.

From my side, there is no intended abrogation of my previous communication transmitted to your email addresses, as I once again humbly remind you of my money lent by means of electronic bank transfer from approximately [39°08'N 117°11'E](#) to [20°02'34"N 110°20'30"E](#), and my ILO C111 Signatory-Territorial Integrity referenced offers and job applications to teach within the TEDA International School founding command chain, in response by subsidiarity to leadership efforts such as the United Nations promoted, the UN Secretary General promoted "Education First"

(<https://www.theguardian.com/global-development/poverty-matters/2012/sep/27/ban-ki-moon-education-teaching-targets>, one of a myriad similar possible references) effort, based on my real life experiences in these above and related audio recordings/video footage for fostering global citizenship.

Please do not hesitate to contact me for any assistance that you envision I may be able to avail you!

Your Excellency, salutations!

Roshan Golmohammadi
