Your Excellence and local Stockholm Personnel,

I am addressing you for any succeeding de facto command denomination that you fiat warrant representation of as I do not want to bring sadness to your premises. In my search for the accurate form of obeisance and in present want of it, I ask your forbearance. I am not sure of exactly what was planted to yield the following outcome near coordinates 39°08'N 117°11'E so I am now asking for a clear explanation.

(I) In Tianjin (天津) I was told, in front of my mother Elizabeth Golmohammadi (born Bevan), that 44 is a lucky number in "China"(1) while being given an envelope marked Johnson & Johnson(2). Similar behavior has been deemed inappropriate here exemplified by the United States Court of Appeals for the First Circuit case No. 10-1838 available in attached file 10-1838P-01A.pdf with Ctrl-f[44](3). After this event I was obliged, in my brother-in-law's words which were issued from the same facility in Tianjin, to eat psychiatric medication of unspecified type for unspecified illness(4) as counter performance for being permitted to talk to my mother even over the phone(5). This was never/has never been/ revoked. I was not then nor am I now certain of which de facto authority (or conjoined authorities) that governs this behavior. I was told that a vice police chief by the suggested name Mr. Gun originated a statement that I could not meet my mother alone, in person(6). Further identification of stated Mr. Gun attributes have subsequently become available in references(7) and(8). A day before this recorded event, I had talked to my mother on the telephone as it appeared that she was prompted with what to say, and her response: "I can't lie" is audible on the attached recording in which you may also hear me tell her that she can say "pass"(9). In my due efforts to elucidate the de facto command chain territorial integrity of this, I inquired at a local TEDA police station on the sixth dajie大街 (street, not excluding avenue). Despite my limited capacity I tried to convey the correct tone(10) of the name Gun as I handed over material on CD ROM(11) comprising a recording of reference(7). I also specifically asked for confirmation that there was a vice police chief by the name Mr. Gun involved in this(12). I was not able to get this confirmed at aforementioned police station. A few days later I inquired about another issue previously raised within submitted material on CD ROM comprising reference(9): My Mother's "I can't lie" statement within her capacity/lack of capacity to talk freely with me(13). As I do not know exactly how zhōng, zung3 or 中 your خليق / 人民 feel such adequacy is to the governing-unifying principles of this de facto command's territorial integrity neither how they perceive it in "who", "what", "where", "when" or "why" terms nor do I know how they understand it or how they cognitively envision a moderate response to it or even what they find to be proper border adjustment of it. I request, generally, any prior knowledge of this in accordance with any distinguishing attributes recognized. The command's most ardently manifested magnanimity may be of public interest be it beyond territory alone, on the high sea or in the air, in short, within the global commons.

I feared for my mother's health and freedom prior to the above events. Formerly she had willfully stated that she did not wish to remain where she was (when near 39°08'N 117°11'E) and wished to leave and return for life in Sweden, with our without me. These audio recorded statements were not easily found on recordings nor where they properly collated prior to above submitted evidence. They are to some extent available as per the reference list as references(14) through(20). Though I am unaware of the active fact finding capacity (within the scope) of your mission in terms of action to inspect, I most warmly welcome any such effort worthy of note. Do you find it to be arbitrary or do you find its jiao to (internationally) be worthy of a red notice or perchance you know of any ICD-10 codes that cover the above recorded manifestations. I should enjoy an explanation, which is skillful, blameless, praiseworthy, and conducive to happiness that it may also be praised by the wise, Your Excellence/Stockholm Personnel! I was quite astounded when two people appeared and wanted me to write and sign a document that would legally establish their final claim of my health. The intention, they said, was to present this to my mother. They (literally one of them) said my mother cried every day because she missed me. These audio recorded statements from within the vicinity of 39°08'N 117°11'E are all available in references(21) through(25). Because they either talked of commencing labor for my sister (Ms. Haleh Golmohammadi) and my brother-in-law (Mr. Olinga Mazlum) as Ms. "GaoFung", or regularly performed chores for payment from them as Ms. Zhangjie, there is a form of proxy relationship to it. I have furthermore been told by my sister that my praying {with my mother as per the recording(26)} is the symptom of my pathology (while near 39°08'N 117°11'E). {On visa D77052806, Reference (27)}

(II) Additionally, I wish to pursue a previously started, but abruptly stalled (due to above situation) reporting for the return of money lent. I lent it for one month initially at no interest, for assisting in the activity of a restaurant in海口hoi2hao2 on 海南(hoi2naam4 island) after having briefly inspected the establishment. My presence is depicted in photograph Img0165.jpg 4th person from the left(28). Reference(29) shows the counter of the establishment. I understood this restaurant to be a Shanghai franchise. It signs are visible from the street in reference(30). Receipts of transferred money are present in references(31) and(32). Reference(33) shows police at a Tanggu police station affirming the police interpreter of references(34) and(35) in which she refers to future submission of evidence. {On visa D77052806, Reference (27)}

(III) I am also inquiring as to the proceedings of my then pristine red Suzuki 125 motorcycle, of the attached numerical identity(36), reported stolen when I was, as I recall, working as foreign expert near 39°08'N 117°11'E.

From considerations of your cognitively recognized position, perhaps you may be able to obtain TEDA International School's prior notices, prior knowledge and documentation of physical representation, pursuant to my follow-up of their original, but now stalled initiatives within the area of sections I and II, all lying further within the ongoing process of negating me access to the de facto command of the above as well as to its adequate documentation with distinguishing names, dates and numbers, albeit with the exception of my mother's previously suggested bodily demise of date: 22nd of March 2013 as transmitted(37), via IP number 65.55.116.106, with its inference of Delivery At Place. Perchance your most fervent inquest, for delineating principal liability/responsibility (主要责任?) of referred acts and presented information, itself could refer to my website material(38) for referencing example of (recorded) TIS representative presence and prior knowledge. May the enlightenment of your probity lead on such a clear and unmistakable direction as if calling on the name of light in the subtropical luster of Macau or invoking it as heaven by the number of seven within the terrestrial circumference of the darkest desolation of a heartfelt prison wall. In anticipation of your noble, majestic, dignified and pragmatic governing principles and understanding that you manifest within the sovereignty of any dominion you recognize as yours/represent, I hereby inquire, of the relationship-capacity, value-form, 交, prior knowledge, modus operandi (作案手法?), its nomenclature/nomenclatura and its command chain superstructure (conferred) signatory and conferred cosignatory capacity that had the capacity and used the capacity to prevent me from meeting or talking to my mother within the recorded attributions and above dominion, in agreement with the way you find it good to help your friends. We may have differences in language, but I believe your long history shows similarities in how

we have, in perceived picturesque mastery, depicted and alluded to the Tree of Life, from its trunk to its finer details. For sustained development of lofty goals relevant to the fundamental stability of a five star status, I wish to offer You and any skilled practitioner on your premises or territory you recognize as yours, this opportunity to explain the above so I am not arrogating to myself presumption of what was then and remains now the succeeding de facto command of this due(?) process, nor saying things about you of which I have no knowledge, as you live up to the ideals of your world view according to your means of influence. In agreement with any Mandate of Heaven, may you well pleased receive the GREATEST GLORY!

Your Excellence/Stockholm Personnel,

most cordially,

Roshan Golmohammadi PhD

ADDENDUM/Appendix - Statements suggesting that a family conflict exists

roshanstedainternationalschooljobapplication.com/10121801_022840SymptomFeelUS_StatedepartmentCaresIndividualAmerican.mp3 In this recording my cousin says that my faith/belief, that the State Department of the United States (and as I understand its body politic) cares about an individual American in a family conflict, is pathological (to the extent a cursor for treatment). roshanstedainternationalschooljobapplication.com/10121302NoIntentionToDoThatFamilyConflict.mp3 further underwrites the inference of a family conflict.
